

Decades of Experience

We've come a long way since Emanuel Carson founded Carlson Manufacturing in 1966. Since starting out in the basement of the family home in Burnsville, Minnesota, we've expanded into 40,000 square feet of workspace and have become one of the country's most reputable and quality-conscious manufacturing companies.

Today, under the leadership of Warren Carlson, we continue the tradition of quality, service, and reliability on which our company's reputation was built. Although we haven't lost sight of the principles on which CMI was founded, we're looking ahead to new innovations and technologies that can provide our customers with greater quality and cost savings.

Through it all, we've maintained our "YES" attitude to service:

- ✓ Yes, we will meet our customers' expectations for reliable quality and timely delivery.
- ✓ Yes, we will treat good customers with honesty, fairness, and respect.
- ✓ Yes, we will keep our prices fair and competitive.

"Great quality - very clean and accurate parts. Best price in the group and had the parts done ahead of schedule. Great manufacturing Co."

Brent-Colorado customer

We Know Manufacturing.

At Carlson Manufacturing, we provide some of the world's most prestigious Fortune 500 companies with custom manufactured products, first-class service, and cost-effective solutions.

How do we do it? Simply stated, we know manufacturing, and we have the knowledge and resources to help you overcome the challenges you're facing. Call today to find out how.

What Should You Look for in a Manufacturing Company?

What's holding your business back? Are you frustrated by unresponsive suppliers and delivery delays? Is your bottom line jeopardized by rising prices and quality issues? It may be time to RAISE YOUR STANDARDS.

Experience >>>

True manufacturing expertise requires years of experience, hard work, and relationship building. We've already overcome the obstacles, and can help you hurdle them with ease. We know manufacturing inside and out, and we have the hard-earned expertise to design custom solutions tailored to your needs.

Integration >>>

Running a successful business is all about managing relationships—with customers, employees, vendors, and investors.

You have enough to juggle—so why use six different suppliers when one can meet all your needs? At CMI, we serve as your one-stop resource for all of your machining and fabrication equipment.

Quality >>>

You need product that exceeds expectations, and we deliver. Our customers know they can count on us as a partner in their business success, and we can do the same for you. Our custom manufacturing solutions reflect a commitment to workmanship and attention to detail.

Cost-effective quality is designed into each step of the process.

Service >>>

Many promise it, but few deliver. We handle your most difficult tasks, so you don't have to. Our goal is to make you look your best.

Efficiency >>>

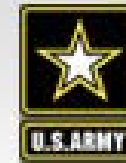

In today's troubled economy, budget cuts and restructuring have forced many companies to spend less and work more.

By using the most efficient and proven processes, we're able to minimize our overhead and keep our prices competitive.

Everything we do is geared toward keeping your costs low and your bottom line high.

Designed for longevity and peak performance, our well-maintained equipment operates smoothly at high production, saving you time and money.

Our solutions are delivered on time, within budget, and backed by full-service support. No job is too small or too large.

The right equipment...right when you need it

We specialize in creating custom manufacturing solutions tailored to our customers' specifications. For this reason, we have a vast assortment of equipment to produce your products with. Visit us at www.carlsonmfg.com to see our equipment list and submit an inquiry. One of our knowledgeable, courteous sales specialists will be in touch promptly to discuss how we can meet your needs.

Global Sourcing Experts >>>

While we are proud to offer U.S.-made products manufactured at our facility, we realize there are certain circumstances when it makes the most sense to purchase solutions from an overseas manufacturing company. When sourcing product with an international provider, it's important to have the expert guidance of a trusted professional. At CMI, we've been helping companies procure reliable outsourced products for decades. In the event that you need to purchase an item from an outsourced company, we can help to simplify a complex process and avoid any potential pitfalls, ensuring that you get the product you need, when you need it.
